Family Support Studies Associate in Applied Science-T Degree Program Requirements 2011-2012

Student Name: _____
Student ID: _____

Program Description Family Support studies is a unique program at the college which has received national recognition. Coursework provides education and training to students currently working or desiring to work with individuals and their families using Family Support practice and principles. The approach nurtures families' healthy development by looking at families' strengths, connecting families to community resources, and supporting and empowering parents to become advocates for their families.

This Associate in Applied Science-T (AAS-T) is a **93 credit** professional technical degree with a core of general education courses commonly accepted in transfer. Professional-technical degrees are not designed for transfer to other colleges or universities. Several four-year colleges and universities have specific bachelor's degree programs that accept the AAS-T degree: Evergreen State College, Antioch University, Seattle Pacific University, University of Phoenix, and City University.

Students seeking to transfer to degree programs other than those specifically designed for the AAS-T should consider the Associate of Arts or the Associate of Science degree, which are specifically designed for transfer to four-year colleges and universities.

Degree Outcomes Outcomes for Edmonds Community College degrees and certificates can be found in the online college catalog at the bottom of each degree or certificate. To find specific outcomes, click on the degree or certificate from the program list in the online catalog at <http://catalog.edcc.edu>.

Credit/Grade Requirements The AAS-T degree is awarded upon completion of **93 credits** as outlined. A minimum of 30 credits or one-third of the required credits, whichever is less, must be earned at Edmonds Community College. Students are required to maintain a minimum cumulative grade point average of 2.0 in all college-level courses. Students who have completed core course work for a human services or early childhood degree may only need to complete the 20 FSS credits specific to the Family Support AAS-T requirements.

General Education/Related Instruction Requirements Students who complete degrees or certificates of 45 credits or more are required to demonstrate learning in the following general education/related instruction areas: communications, computation/quantitative skills, and human relations/group interaction. All courses in the general education component of the AAS-T must be generally transferable courses and they must assure that the student have a foundation in communication and quantitative skills as well as an introduction in science, social science and humanities. These courses may also serve the dual purpose of meeting industry requirements for job preparation.

Common Course Numbering Changes Please refer to www.edcc.edu/ccn for more information.

Cultural Diversity Edmonds Community College requires that students earning a degree or certificate of 45 credits or more meet the Cultural Diversity Requirement. Courses that satisfy this requirement are marked as ".CD" on the requirement sheet and/or "Meets Cultural Diversity Requirement" in the quarterly class schedule.

Transfer of Credit Non-family support credits will transfer from any accredited college to satisfy all non-family support requirements. To transfer non-family support credits, students must request an evaluation of their college transcripts through the college registration office. This should be done during the student's first quarter at the college.

Students are Advised to

- Consult with a Family Support Studies faculty adviser quarterly for course selection and completion of degree requirements and plan their schedule several quarters in advance. *Note: All decisions on selection of courses are ultimately the responsibility of the student*
- Review the college catalog for required course prerequisites and include these in schedule planning
- All students who intend to transfer should meet with an adviser of the college they plan to transfer to review specific admission requirements

Graduation Application A completed Graduation Application form must be submitted to Enrollment Services by the 10th day of the quarter in which the student expects to graduate. Forms are available at Enrollment Services located in Lynnwood Hall, or online at www.edcc.edu/credentials/
